Association Abstract

The Swiss Hospital Engineers (IHS) brings together about 400 members (as of 2017), two thirds of whom are technical managers and specialists from the hospital sector, and one third of the company's members. The IHS thus brings together the expertise and decision-making competencies of the hospital's infrastructure departments. It promotes and supports the interests of its members with regard to their activities and tasks in the hospitals. ...

Update and Academy (September 2017 – October 2018)

(Conference, Course, Technical Educational Leading to Qualifications Seminar, Branch meeting, Congress, etc)

Branch meeting	7	26.4.18 regional meeting "center", in Basel	4
Branch meeting	8	24.5.18 regional meeting "west /south" in Lausanne	4

Brief activity report of the organisation (additional activities)

...

Its principal features are:

- Exchange of experience within the members
- Formation of networks
- Conducting specialist events and an annual conference with an exhibition of our company members
- Elaboration of guidelines and recommendations in the field of hospital engineers, in some cases in collaboration with other specialist associations
- Perception of the interests of its members against authorities, associations and other institutions
- Participation in standardization agreements
- Cooperation with European and worldwide partner associations

The IHS thus creates the foundations for a network of senior technical services staff for its company members.
The hospitals benefit from bundled know-how and a valuable exchange of experience.

Note: This document must be presented with "National Member Data Sheet" updated.
